

BUILD & STORE PROGRAM

The Build & Store Program provides you with real peace of mind. Your furniture orders are built and stored, ready to ship exactly when you need them. Now you can focus on your project without worrying about logistics.

How It Works

- We receive your complete and qualifying order starting August 1st, 2026 until March 15th and build your order to inventory.
- We store it at no charge and ship it when you need it. We do not issue an invoice until your actual ship date.

Benefits

- Orders that qualify for this program (\$20,000 net and up) will ship on time without delay. If you need to move your date back, we will hold* your completed order with no storage fee.
- Your order will be shipped and arrive at your location when you need it.
- Your order will be built off-season, avoiding high demand for fabrics and materials that could delay your order.
- You'll have less stress and more peace of mind.

*We will send your invoice on the product ship date.
