

DRIFT HARBOR

General Specifications

End/Intermediate Panels: All end and intermediate panels are 1" engineered wood with high pressure laminate on both faces; exposed edges are banded with 3mm PVC with edges and corners radiused 1/8". End panels have installed threaded inserts to accommodate two rare Earth magnets for ganging desk units. A 60mm dual grommet is standard for wire passage in end panels.

Top: The top panel is 1" thick engineered with high pressure laminate faces. The edges are banded with 3mm PVC. The top is attached to the vertical panels using dowel and cam connections. Open Desk units include grommets in the top for wire passage.

Base: The base is a structural 1" thick engineered wood with high pressure laminate faces; exposed edges are banded with 3mm PVC with edges and corners radiused 1/8". The base is attached to the vertical panels using dowel and cam connections.

Casters: 75mm locking casters are installed towards the patron side of the desk, below the base panels to give a wheelbarrow effect. Adjustable height levelers are installed on the bottom of the vertical panels towards the user side.

Back Panel: 18-gauge powder coated steel panel.

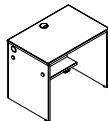

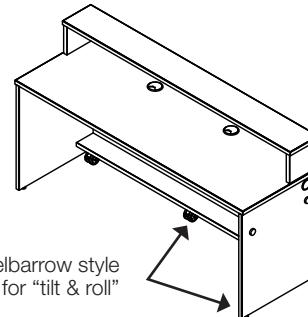

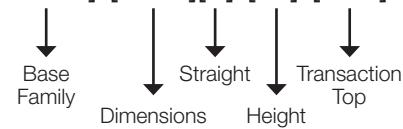

Storage Units: Door panels and shelves are 1" thick engineered wood with high pressure laminate faces; exposed edges are banded with 3mm PVC with edges and corners radiused 1/8". Tote storage includes Falcon T15 colored thermoplastic rails to organize and store our full range of totes.

Steel End Panels: 16-gauge powder coated steel panels that attach to the magnets on the side of the desk.
