# Features & Benefits (Shelving):

- Drift Single- and Double-Faced Curved & Straight Mobile Shelving.
- Concave units have the shelving on the inside curve, convex units have the shelving on the outside curve and double sided units have shelving on both sides
- Perforated steel back options available
- Multiple configurations available when pairing together: pair concave units to make a circle or concave units with convex units to create an "S"
- Great for dividing a space or carving out a seating nook when paired with our Full Time Curve Ottomans.
- Optional connecting magnets and top handles are also available.
- View our Drift Curved Bookcase Product Demo video to learn how to adjust shelves at: <https://www.youtube.com/watch?v=7ZidtCdVYRA>

**Note:** Steel bumpouts are designated with their own model number. DFT-CSBV-6 for concave units and DFT-CSBX-6 for convex units.

# Features & Benefits (Storage):

- Various storage options including: cabinet, combination, tote & open storage
- Wood, Steel or Markerboard back
- Adjustable shelves
- Optional handles and connecting magnets
- 2" diameter casters are standard

# Features & Benefits:

- High pressure laminate work surfaces and transaction tops with 3mm PVC edges
- High pressure laminate end and intermediate panels with 3mm PVC edges
- Rare Earth magnets on end panels for ganging desk units
- 60mm dual grommet is standard for wire passage in end panels
- Open Desk units include 60mm grommets in the top for wire passage
- 75mm locking casters towards the patron side of the desk and adjustable height levelers on the bottom of the vertical panels towards the user side
- 18-gauge powder coated steel back panel
- Tote storage includes thermoplastic rails to organize and store our full range of totes. **Note:** Tote rails are Falcon T15 thermoplastic
- 16-gauge powder coated steel terminating end panels attach to the magnets on the side of the desk

#### General Specifications (HPL)

**End/Intermediate Panels:** All end and intermediate panels are un-detailed 1" engineered wood with high pressure laminate on both faces; exposed edges are banded with 3mm PVC with edges and corners radiused 1/8".

**Top:** The top panel is 1" thick engineered with high pressure laminate faces. The edges are banded with 3mm PVC. The top is attached to the vertical panels using dowel and cam connections. The back edge of the panel is dadoed to contain the curved back panel (if 1/4" engineered wood back option is chosen).

**Base:** The base is a structural 1" thick engineered wood with a high pressure laminate face and a .030 phenolic backer; exposed edges are banded with 3mm PVC with edges and corners radiused 1/8". The base is attached to the vertical panels using dowel and cam connections. The back edge of the panel is dadoed to contain the curved back panel (if 1/4" engineered wood back option is chosen).

**Back Panel:** Engineered wood backs are 1/4" thick with high pressure laminate on both faces (DFTT) or curved 18-gauge perforated powder coated steel panel (DFTTS).

## DRIFT BENCH

- Available in two storage base options: Open Storage and Open Tote Storage. Storage base is only available on one side.
- Pairs with Drift mobile shelving and storage.
- Comfortable 1-1/2" thick upholstered seat cushion.
- Available in your choice of oak or maple veneer, high-pressure laminate or melamine.
- Swivel casters for added mobility.

#### General Specifications

**End/Intermediate Panels:** All end and intermediate panels are un-detailed 3/4" engineered wood with high pressure laminate, melamine or veneer on both faces; exposed laminate panel edges are banded with 3mm PVC, veneer panel edges are banded with 1/8" w wood banding. Edges and corners radiused 1/8". Vertical panels are machined for the mounting of tote rails on Open Tote Storage units. One (1) mobile storage unit is constructed of two (2) end panels and one (1) or two (2) intermediate panels. The Open Storage model has two storage compartments divided by one vertical intermediate panel. Each compartment will have one adjustable shelf. The Open Tote Storage model has three compartments with two vertical dividers.

**Top:** The top panel is 1" thick engineered wood with high pressure laminate, melamine or veneer faces. The laminate panel edges are banded with 3mm PVC, veneer panel edges are banded with 1/8" w wood banding. The top is attached with pre-glued dowels. The upholstered seat cushion assembly is 1-1/2" of upholstery foam on a 3/4" cushion backer. The seat cushion assembly is fastened to the top panel with screws.

### To Order, Choose Finish Selections & Options

### DRIFT BENCH OPEN TOTE STORAGE STANDARD SIZES

MODEL	DEPTH"	WIDTH"	HEIGHT"
DFTB-42-1819-TOTO-T-MOB	19	42	18
DFTB-42-1819-TOTO-L-MOB	19	42	18
DFTB-42-1819-TOTO-M-MOB	19	42	18
DFTB-42-1819-TOTO-O-MOB	19	42	18

**Base:** The base is 1" thick engineered wood with a high pressure laminate, melamine or veneer face and a .030 phenolic backer; exposed laminate panel edges are banded with 3mm PVC, veneer panel edges are banded with 1/8" w wood banding. Edges and corners radiused 1/8". The base is fastened to the vertical panels with pre-glued dowels and screws. 75mm locking swivel casters with thermoplastic elastomer treads are bolted to the bottom of the base using 5/16" - 18 machine bolts. Casters are located at the four corners of the base.

**Back Panel:** Back is 3/4" thick engineered wood with a high pressure laminate, melamine or veneer faces.

**Tote Rails (on Open Tote Storage Models):** TOTR tote rails are mounted on the inside faces of the end panels and both faces of the intermediate panels and allow totes to be fully removable. Tote rail type and spacing is suitable for the use of TOT03- & TOT06- totes. Totes are not included and can be found at:
