Forum Relax Lounge vs. Forum Work Lounge

Forum Relax Lounge and Forum Work Lounge are essentially the same lounge seat with different bases. Through the development of a new steel base, the shell of the Forum Work Lounge Seat has been rotated 8-degrees forward to create a more forward/upright posture which is more comfortable for laptop use and the use of other devices.

The Forum Relax Lounge is the Forum Lounge which has been given a slightly more differentiating name to suit its intended application.

Both Forum Relax Lounge and Forum Work Lounge share the same iconic DNA of the stylish and comfortable Forum Lounge.

FORUM RELAX & WORK

Chairs & Stools
