

mts Select

Curated for Quality. Built for Speed.

| Available in  CET

MTSelect is a collection of our top selling products within a selection of finishes that was created to provide a quick design, quote and order lead time. The program offers a wide array of solution driven products in finishes that are readily available. In addition to this resource we also have these products in their own CET catalog.

mediatechnologies is not the largest furniture manufacturer in Michigan but we are the self-proclaimed coolest. We have been making amazing wood products along the beautiful lakeshore of Lake Michigan since 1984. Ok, we started with electric guitars, but we've been Rockin' Furniture since 1989.

Our mediatechnologies brand of K-12 and public library furniture has earned the reputation of being "30-year furniture" (which means it lasts for a long time). Our strength lies in finding unique solutions to our customers' furniture needs because we have a rare and special talent... we actually listen to our customers.

We are excited to be able to share this talent with you as a partner.

We welcome you to join us on our journey of awesomeness!

Our Promise

mediatechnologies believes in value that is built to last, right here in the USA. Our products are manufactured on-site and provide skilled trades careers to our small community. You can count on a quality experience with mediatechnologies from concept through delivery and for years after.
