

OMNIA[®]
PARTNERS

mediatechnologies[™]

A Better Way to Purchasing Furniture

With tightening budgets and increased public scrutiny, your organization needs to maximize every dollar spent on your physical environment. High-impact furniture is the foundation of community, but the traditional bidding process for furniture solutions can be a time-consuming hurdle that often forces you to settle for the lowest-priced, lowest-quality offering.

There is a better way to go. Through our partnership with OMNIA Partners/OPUS, you can skip the RFP process entirely and go straight to the solution. There is no cost to participate, no registration fees, and no minimum order requirements.

Common Procurement Questions:

- **Does this contract satisfy my procurement process?** Yes. All agreements offered through OMNIA Partners OPUS platform have been awarded via a thorough Request for Proposal (RFP) competitive solicitation by an elite lead public agency.
- **Can I see the bidding documents?** Transparency is key. All documents related to the solicitation and award process are available for your review online on OPUS and at the OMNIA Partners supplier portal.
- **Is the pricing truly competitive?** The pricing available via our OMNIA Partners contract is the best available “guaranteed lowest” pricing for participating public agencies, libraries, and schools.

The mediatechnologies Advantage

We aren't just a manufacturer; we are a Michigan-based maker. We design & build our products, giving you a direct connection to the manufacturing floor.

- **US-Based Manufacturing:** Because we manufacture in Shelby, Michigan, we aren't slowed down by tariff constraints or international shipping delays.
- **Custom & Semi-Custom Design:** We don't believe in “off-the-shelf.” We engineer furniture foundations tailored to your specific architectural vision.
- **Accelerated Timelines:** Our domestic supply chain and OPUS contract allow us to move from design to installation faster than the competition.
- **Proven Public Sector Success:** We have a long track record of serving K-12 schools, universities, and public libraries with durable, high-quality solutions.

Key Benefits at a Glance

Eliminate RFPs: Accelerate your project timeline by months.

Save Taxpayer Money: Leverage collective buying power for maximum value.

Direct Maker Access: Work directly with the team designing and building your furniture.

Sustainable Quality: Invest in American made furniture built to last for decades.
