

General Specifications

**Seat:** Seat is a formed plywood shell finished in high pressure laminate or oak or maple veneer. Mounting hardware that secures shell to frame is fastened to the underside of the shell with wood screws.

**Frame:** The frame assembly is powder coated steel tubing. Chrome finish frame is available upon request. The frame is completely welded and each leg is capped with plastic boot glides. Romak chair is stackable. Romak stool frame is 1" diameter 16-gauge powder coated steel tubing with knock-in plastic glides. The stool frame includes welded foot rest and is not stackable.
