

## General Specifications

**Table tops:** 1-1/4" thick, three-ply 45# particleboard construction with a .050" high pressure laminate top surface and a .030" phenolic backer. Corners for rectilinear tops: square corners on banded tops have a 1/8" radius.

**Worksurfaces:** Top worksurface is 18"D, lower worksurface is 24"D. The lower worksurface height on the Dual Surface Z Table is 25.5"H. Edges are 3mm PVC with a 1/8" radius top and bottom. 3" diameter covered wire management grommet(s) standard in the top work surface. Top includes (1) cabling grommet per user space.

### Steel Spanner Worksurface Support (Dual Surface Z Table Only):

Steel support is constructed of 1" x 1" 14 gauge steel tubing with through holes for attachment to lower worksurface. Includes recessed star inserts on each end of the spanner. Unit attaches to end frame assemblies via 1/4"-20 flat head bolt.

**End Frame Assembly:** Steel end Frames are weldments consisting of 14 gauge 1 1/4" diameter curved steel tube legs, a curved 3/4" diameter arched spanner and a 1/4" x 6"W steel mounting plate. Legs are fitted with decorative adjustable glides that screw into threaded welded inserts and whose height allows them to be replaced by casters without modifying leg length.

**Modesty/Wire Management Panel:** Panel is constructed of 18 gauge steel and is attached to the underside of the work surface with #10 x 1" wood screws and is bolted to the "End Frame Assembly" uprights with #10-24 button head machine screws. The lower part of the panel is bent to form a wire management channel. For Z tables: panel is attached to the underside of the upper work surface.

**Finish:** See **mediatechnologies** Finish and Color Guide for choices.

### Single Surface Z Tables

Model Number	Description	Wt	List Price
<b>3mm PVC Edges</b>			
ZS-C3036-29	30"D x 36"W x 29"H	72	\$1,258
ZS-C3048-29	30"D x 48"W x 29"H	88	\$1,442
ZS-C3060-29	30"D x 60"W x 29"H	105	\$1,601
ZS-C3072-29	30"D x 72"W x 29"H	166	\$1,770
